Winter Sanctuary

Winter Sanctuary is a seasonal emergency-shelter program for homeless men and women. Each winter, cold and wet weather conditions threaten the lives of nearly one thousand homeless men and women who live on Sacramento-area streets. The Winter Sanctuary Program was founded to meet the needs of these individuals. Comprised of a network of religious congregations under the leadership of Volunteers of America and Sacramento Steps Forward, Winter Sanctuary is the only winter shelter option for single, homeless adults. The goal of this privately funded program is to help these individuals, who all too often fall through the cracks.

Supportive Housing Programs

The Organization's Supportive Housing Programs target the most vulnerable people who need housing and service supports to remain in stable housing and live healthy lives. In addition to individuals experiencing chronic homelessness, this includes people who are inappropriately placed in institutional care settings, such as nursing homes and state hospitals, due to a lack of affordable housing options and/or inadequate community-based care. Integrated models of supportive housing and health services, which have been proven effective in improving housing and health outcomes for this population, share a common set of guiding principles and dimensions of quality.

Supportive housing is affordable rental housing with no artificial time limits on residency. Rent is adequately subsidized such that extremely low-income tenants can pay no more than thirty-percent of their gross monthly income for rent.

Supportive housing provides individuals access to immediate, permanent, quality affordable housing in their own apartments or homes without any preconditions or requirements for sobriety or treatment compliance to maintain housing. Residents of supportive housing hold their own leases and have the same rights and responsibilities as any other resident. Programs assertively engage residents and offer services to maximize housing stability, including regular communication with property managers, advocacy on behalf of residents and mediation of conflicts with landlords.

Individuals in supportive housing have access to a comprehensive array of flexible

services including housing stability supports, income and benefits support, coordinated health and behavioral health services, twenty-four hour crisis intervention, employment services, diet/nutrition counselors, and recovery/wellness peer support specialists. Services are provided as needed to ensure successful residency and to support recovery and engagement in community life. Programs facilitate full integration into the community by providing direct assistance to tenants around employment, volunteer work, social activities and tenant-led community building activities.

The Homeless Management Information System (HMIS) is an electronic database used to house characteristic and service needs information of individuals experiencing homelessness. The program was developed in response to a mandate by Congress requiring states to collect data in order to receive funds from the Department of Housing and Urban Development to address homelessness. HMIS allows agencies within the continuum of care to better provide services to the homeless population by collecting basic demographic and other information in a secure site.
